

Container Comparison

Are you unsure which type of secure collection container will work best in your office? The following will help you determine whether the 95-gallon security container or the standard console will work better for you.

*Still have questions?
Call us at 1.877.KODIAK.7*

IS APPEARANCE IMPORTANT?

The standard console is more appropriate for a professional office setting.

IS COST YOUR TOP CONSIDERATION?

The 95-gallon bin maximizes your storage capacity and gives you the lowest price per pound.

IS YOUR OFFICE CRAMPED, WITH LITTLE FLOOR SPACE?

The standard console has a smaller footprint (approximately 2'x2') and takes up significantly less floor space than the 95-gallon container.

DO YOU WANT FEWER CONTAINERS IN YOUR OFFICE?

The 95-gallon bin holds approximately 300 pounds of paper. You would need 3 standard consoles to provide the same capacity.

ARE YOU ON MULTIPLE LEVELS WITH NO ELEVATOR?

The standard console is the best and safest choice for you. Fully-loaded, the 95-gallon bin is difficult and dangerous to move down stairs.

WILL YOU NEED TO MOVE THE CONTAINER AROUND?

The 95-gallon bin has wheels, so it can be easily moved to different locations within your facility.
