

Why Use Kodiak Shredding?

KODIAK
SHREDDING

- ♦ *Are you concerned about the security of your organization's confidential information?*
- ♦ *Do you have unsecured paper storage boxes scattered throughout your office?*
- ♦ *Are your employees fed up with spending hours in front of a low-volume office shredder?*
- ♦ *Are you worried that you may not be in compliance with the new consumer privacy laws?*

If so, Kodiak Shredding can help!

UNPARALLELED SECURITY

Kodiak Shredding is AAA-Certified for mobile operations. That means an independent risk assessment professional conducts a yearly audit of our written plans and procedures, physical security measures, insurance levels, hiring practices, and overall shredding operation. A decision to use Kodiak Shredding is a decision you can make with confidence and peace-of-mind.

UNQUESTIONABLE VALUE

For recurring service, we offer generous discounts for the placement of multiple bins in your organization. For one-time purges, we use legal-for-trade scales on all our shredding equipment, which means you get extremely accurate billing and only pay for what you shred.

SUPERIOR CUSTOMER SERVICE

You're busy and need quick, professional, and helpful answers to your shredding questions. That's why we guarantee a one-business day response to any service inquiry. We will customize a document destruction plan specifically for your organization and review your plan periodically to make sure you are getting the highest level of value for your shredding dollar.

NATION-WIDE COVERAGE

As a member of IPSA, Kodiak Shredding can establish nation-wide service for any size company. If your organization has multiple locations a national account can provide consistent AAA-Certified service levels, a single contact for service requests, centralized billing, and national pricing discounts.

CUTTING-EDGE TECHNOLOGY

We are dedicated to providing you with the best available technology for your shredding needs. Our fleet of Shred-Tech MDS-35GT shredding trucks uses a hands-free loading system so we do not need to touch your confidential documents when they are shredded. They also incorporate a video monitoring system so you can visually verify that your confidential information is destroyed. The equipment shreds at a rate of 6,000 pounds an hour, which means shorter stops at your facility.

Contact us today for help solving your confidential information destruction issues.
